CAREER OBJECTIVE

Motivated Computer Science student with a strong foundation in Java, SQL, DBMS, full-stack web development, and cybersecurity. Seeking an entry-level software development opportunity to apply programming and problem-solving skills and contribute effectively to a professional team.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science — Mohan Babu University, India
Expected Graduation: 2027 | CGPA: 7.94/10
Intermediate (12th Grade) — Percentage: 74.2%
10th Class (SSC) — GPA: 10.00/10

TECHNICAL SKILLS

Programming:	Java, Python
Web:	HTML, CSS, JavaScript
Backend:	Flask, Spring Boot, REST APIs
Database:	MySQL, SQL, SQLAlchemy
Cybersecurity:	Threat Detection, Log Analysis, Anomaly Detection, Cryptography
Concepts:	OOP, DBMS, Data Structures & Algorithms, Machine Learning, Blockchain
Tools:	VS Code, MySQL Workbench, Git, GitHub, Postman, XAMPP

PROJECT

CyberShield Intelligence – AI-Powered Cybersecurity Threat Detection System | Python, Flask, Machine Learning, MySQL, Cryptography, Blockchain

- Developed a cybersecurity intelligence platform for monitoring security events, analyzing logs, detecting anomalies, and identifying potential threats.
- Built a Flask-based backend with user authentication, admin functionality, database integration, and security monitoring modules.
- Implemented machine-learning components for anomaly detection and threat classification, with security predictions and recommendations.
- Developed log analysis functionality to process security events and generate security alerts based on suspicious activity.
- Integrated cryptographic utilities and a Python-based blockchain ledger to support secure and tamper-resistant security records.
- Used MySQL/SQLAlchemy for structured storage and Git/GitHub for source-code management and project version control.

KEY STRENGTHS

Problem-solving and analytical thinking • Quick learner • Strong programming fundamentals • Teamwork and adaptability • Self-motivated and detail-oriented
